PROFESSIONAL EXPERIENCE

Coderay Technologies Pvt Ltd — Diyathalawa, Sri Lanka

Total Tenure: September 2025 – Present

Associate Tech Lead *(September 2026 – Present)*

- Guide software architecture, system design, and technical decision-making for enterprise-grade full-stack applications built on .NET Core and React.
- Provide technical leadership and code governance across Agile teams, establishing coding standards and reviewing implementations for scalability and reliability.
- Coordinate cross-functional requirements with stakeholders and translate business specifications into technical delivery roadmaps.

Senior Software Engineer *(September 2025 – July 2026)*

- Architected and developed end-to-end full-stack web applications using ASP.NET Core, React, TypeScript, and Microsoft SQL Server.
- Engineered secure, high-performance RESTful APIs, database-driven micro-components, and modular UI workflows.
- Managed cloud-hosted environments and automated continuous deployment workflows utilizing Azure DevOps and Git.

---

hSenid Business Solutions — Colombo, Sri Lanka

Full Stack Software Engineer *(January 2023 – July 2025)*

- Designed, developed, and delivered high-impact Enterprise Change Requests (CRs) in enterprise .NET environments aligned with approved business requirements.
- Built and maintained modular RESTful APIs utilizing C#, ASP.NET Core, and Entity Framework to interface with core enterprise datasets.
- Led code refactoring initiatives across legacy modules, measurably lowering defect occurrence rates and enhancing system throughput.
- Strengthened enterprise application security standards by implementing modern authentication patterns and secure coding practices in .NET Core.
- Participated actively in Change Control Board (CCB) sessions, providing technical impact analysis, code reviews, and accurate developer effort estimations.
- Authored standardized technical implementation and deployment guides to streamline client-side releases.

Sri Lanka Telecom PLC — Colombo, Sri Lanka

Software Developer *(March 2021 – December 2022)*

- Engineered enterprise web solutions using React, .NET Core, and Microsoft SQL Server for high-availability enterprise client systems.
- Implemented and consumed decoupled RESTful APIs to enable service-oriented architectures across multi-tier applications.
- Contributed to the development and enhancement of core ERP modules adopted by multiple external partner organizations, enhancing user operational efficiency.
- Promoted clean code standards and structured debugging protocols, accelerating issue resolution timelines and stabilizing sprint deliverables.
- Participated in Agile sprint ceremonies, including sprint planning, daily stand-ups, backlog refinement, and retrospectives.

Peercore Nexgen Pvt Ltd — Colombo, Sri Lanka

Associate Application Engineer *(July 2020 – February 2021)*

- Configured, monitored, and supported enterprise client platforms across Microsoft SQL Server, MySQL, and Oracle Database backends.
- Investigated and resolved platform operational issues through centralized ticketing systems, maintaining agreed service response SLAs.
- Formulated comprehensive platform feature documentation and release notes to assist customer onboarding and technical operations.

Richard Pieris and Company PLC — Colombo, Sri Lanka

Software Engineer Intern *(October 2019 – March 2020)*

- Built a supermarket fleet taxi service application, integrating Firebase real-time database and Google APIs.
- Developed custom functional modules and performed defect remediation across the company's internal ERP platform using Java and MySQL.

EDUCATION

Bachelor of Science (Hons) in Information Technology and Management
University of Colombo — Colombo, Sri Lanka *(January 2016 – March 2020)*
Fields of Study: Computer Science, Applied Mathematics, Information Technology, Management
